## EDUCATION

---

**University of Engineering and Technology**

*BS Artificial Intelligence*

Lahore, Pakistan

*Expected 2029*

**Forman Christian College**

*Intermediate Computer Science*

Lahore, Pakistan

*2022 – 2024*

## PROJECTS

---

**News NLP Pipeline** | *Python, SQLite, BERTopic, spaCy, Transformers, Streamlit*

2026 – Present

- Built an NLP pipeline exploring topics and sentiment across 15 years of Pakistani news history
- Scraped and analyzed 350K+ Dawn News headlines to discover topics, run sentiment analysis, and extract named entities without manual labeling
- Applied BERTopic for unsupervised topic discovery, identifying 20 topic clusters across historical news data
- Extracted 404K+ named entities and deployed an interactive Streamlit dashboard for exploring results

**wmus** | *Python, windows-curses, pygame*

2026 – Present

- Developed a keyboard-first terminal music player for Windows inspired by cmus
- Built a lightweight terminal interface focused on fast navigation and efficient playback workflows
- Implemented fuzzy search, metadata caching, and keyboard-driven controls
- Created an open-source music player because cmus is not natively available on Windows

## TECHNICAL SKILLS

---

**Languages:** Python, C++, GDScript

**Systems & Tools:** Linux, Git, SQLite, Bash

**Machine Learning & NLP:** PyTorch, Transformers, Hugging Face, scikit-learn, spaCy, BERTopic, NLTK, Pandas, NumPy

**Development & Deployment:** Godot, Unity, Streamlit, GitHub Pages
