EDUCATION

University of Engineering and Technology

BS Artificial Intelligence | GPA: 3.25/4.0

Lahore, Pakistan

2025 – Present

Forman Christian College

Intermediate Computer Science

Lahore, Pakistan

2022 – 2024

PROJECTS

News NLP Pipeline | *Python, NLP, PyTorch, scikit-learn, Transformers*

2026 – Present

- Built an end-to-end NLP pipeline for processing raw news articles into structured insights
- Implemented text preprocessing, feature extraction, and classification for downstream analysis
- Applied BERTopic for topic modeling and transformer-based models for NLP tasks
- Used SQLite for structured storage and dataset management
- Generated visual insights using Matplotlib for analysis and reporting

WMUS | *Python, curses*

2026 – Present

- Built a terminal-based music player with queue management, shuffle, search, and library browsing
- Implemented real-time TUI using Python curses for interactive terminal control
- Designed modular architecture separating audio playback, UI rendering, and state management

Waddle Away | *Godot, GDScript*

2026

- Developed a 2D endless runner with procedural obstacle generation and progressive difficulty scaling
- Published playable web build on itch.io with smooth controls and responsive gameplay feel
- Implemented core game loop, collision system, and animation state machine from scratch

TECHNICAL SKILLS

Languages: Python, C++, GDScript, HTML, CSS

Tools & Platforms: Git, Linux, Godot, SQLite

Machine Learning & NLP: NumPy, Pandas, Matplotlib, scikit-learn, PyTorch, Transformers, Hugging Face, BERTopic
