EDUCATION

University of Engineering and Technology

BS Artificial Intelligence

Lahore, Pakistan

Expected 2029

Forman Christian College

Intermediate Computer Science

Lahore, Pakistan

2022 – 2024

PROJECTS

News NLP Pipeline | *Python, BERTopic, spaCy, Transformers, Streamlit*

2026 – Present

- Built an NLP pipeline processing 350k+ Dawn News headlines from 2010–2025 to analyze long-term news trends
- Applied BERTopic for unsupervised topic discovery across 15 years of articles without manual labeling
- Extracted 404k+ named entities and developed downstream models for sentiment analysis and text classification
- Deployed an interactive Streamlit dashboard for exploring topic distributions and temporal trends

WMUS | *Python, curses, SQLite*

2026 – Present

- Developed a keyboard-first terminal music player for Windows focused on fast navigation and lightweight playback
- Designed a modular architecture separating audio playback, UI rendering, and application state management
- Implemented fuzzy search, vim-style navigation, customizable keybindings, and metadata caching
- Packaged the application with versioned releases and an installer for simplified distribution

TECHNICAL SKILLS

Languages: Python, C++, GDScript

Machine Learning & NLP: PyTorch, Transformers, Hugging Face, scikit-learn, spaCy, BERTopic, Pandas, NumPy

Tools & Platforms: Linux, Git, SQLite, Streamlit, Godot, Unity
